

7RB-LED CYCLE

The TKO 7RB-LED Cycle Commercial Recumbent Bike delivers exceptional comfort, durability, and performance for full commercial environments. Designed for health clubs and fitness facilities, it features a self-powered hybrid brake system with 20 resistance levels and 350W resistance brake power to accommodate users of all fitness levels. The easy-to-use powered console with 6 display windows and dot matrix LCD screen offers preprogrammed workouts, instant program keys, and contact heart rate grips for effective, low-impact training. With a high 350 lbs max user weight, single-sided weighted pedals, and convenient transport wheels, the 7RB-LED Cycle is built for reliability, comfort, and everyday use.
